

Product Description

The latest Automotive Battery Analyzer from Pixpro is dedicatedly developed to measure 7V -30V regular flooded, AGM flat plate, AGM spiral and gel batteries. Covers most of the battery rating standards: CCA, BCI, CA, MCA, JIS, DIN, IEC, EN, SAE and GB standards, for accurate battery health status checking.

Specifications

Measure Range : DC 7V-30V

Test Range : Starting & Charging System CCA40-2000, 30-220Ah

Test Standard : CCA, BCI, CA, MCA, JIS, DIN, IEC, EN, SAE, GB

Test Result : SOH, SOC, CCA Value, IR

Housing Material : Acid-Resistant ABS Plastic

Features : Shock-resistant

Color-coded copper-plated clamps
